

SEQUOIA

Look Up, Think Biggest!

Sequoia is the first machine in the V5 series: a large format 3D printer with a hot chamber for never before seen dimensional freedom.

SEQUOIA

Data sheet

 Max print volume	1200(x) x 1100(y) x 900(z) mm
 Mechanical specifications	<ul style="list-style-type: none">• Brushless motorization, beltless, micrometric precision.• Z calibration, plate leveling, extruder leveling: all automatic.
 Temperatures	<ul style="list-style-type: none">- 130°C hot chamber fast heating and low consumption (pat pending).- 200°C heated top, removable tray and reusable.
 Drying	6 Vento units (3 of use + 3 of parking)
 Features	<ul style="list-style-type: none">• Display touch 19.5"• 500Gb storage on board
 Electrical Specifications	380Vac 3 phase, 32A
